

## **New Design and Enhancements for Business Online Banking**

Upon login to online banking starting April 15, 2019, Farmers National Bank Business customers will experience a new look and enhancements to the Business online banking platform. The new design will feature more functionality upon sign in, redesigned pages for faster account management, responsiveness on all devices and new integration capabilities. Improved navigation makes usability easy and consistent.

Highlights of the new online banking interface are below:

- Responsive design to help ensure all data is clearly displayed on any device or screen size
- Updated sign in process with Access ID and Password as a one-step login
- Navigation areas have been restructured for a better flow of system functionality
- Updated multi-factor authentication for added security
- Redesigned token pages to include more information
- ACH Manager will have a new look and design
- New Soft Token available when installed on a mobile device while still maintaining a high level of security
- Redesigned accounts page to display a summary of all the user's accounts
- Easier access to transaction search directly from the Account information page
- New Transaction Download option allows the user to download processed transactions for a single account

**Please note:** If you have ACH Manager, a representative from Farmers National Bank's Treasury Management team will be contacting you with additional details.

If you need additional assistance, please contact the Farmers National Bank Customer Support Center at 1.888.988.3276.
